MEMORANDUM FOR: Secretary, USIB Security Committee
SUBJECT : Computer Security Subcommittee Submission for FY 1973 Accomplishments Report of USIB Security Committee

1. During FY 1973 the Computer Security Subcommittee accomplished the following:

a. Work was completed on the development of Sanitization Procedures for Magnetic Storage Media. It is planned that this paper will be incorporated in a handbook which will accompany the Intelligence Community Policy Paper on Computer Security. This Policy Paper is presently under development by the Computer Security Subcommittee;

b. The CSS, in cooperation with the IHC, evaluated the upgrading of COINS to include TK information;

c. The CSS participated in the ongoing U. S. Government support effort to [redacted] with respect to a contract involving computer security between the [redacted] and [redacted]. It is anticipated that this effort will be terminated during the calendar year 1973;

MEMORANDUM FOR:

STAT

SUBJECT : Computer Security Subcommittee Submission
for FY 1973 Accomplishments Report of USIB
Security Committee

1. The Secretary, USIB Security Committee, contacted me this morning asking whether the Computer Security Subcommittee had any items to submit for the Annual Security Committee Accomplishments Report to the Director.

2. Would you prepare on an expedite basis a summary of significant Subcommittee accomplishments during FY 1973. The reported items should contain sufficient detail to tell the whole story of their importance. Since the SECOM secretary has already begun preparation of this Committee report, I would like to submit it by noon on Thursday, 26 July 1973.

Chief, Information Systems Security Group
